Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This two-story framed and weatherboarded 4-square house faces west onto Maryland Route 765. It is set on a concrete foundation. The ridgeline of the hipped roof runs perpendicular to the facade. There is a hipped dormer set into each face of the roof. The roof is covered with decoratively molded pressed metal. There is no visible chimney. The windows have their original two-over-two double-hung-sashes. The second-story fenestration is two bays, each consisting of paired windows. The first-story facade is concealed by a hipped-roof, screened-in one-story porch supported by Doric columns. The house was built sometime around the turn of the century.
